1 Flow tables in

CSV or Parquet
column roles: hosts,
ports, time, capture day

2 Derived split units

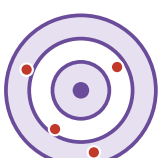
dup ✓
5-tuple ✓
host pair ✓
session ✓
capture !

train/test overlap
per unit
split validity
composition controls

3 CI gate

saved report →
exit code; fails on
the chosen severity

4 Injection benchmark



synthetic tables with
planted leaks and ground
truth; runs other tools

SCREEN Lineage screen: share of rows of one corpus found in another after renamed, reordered or rounded columns. Not a provenance test: compare with the within-corpus baseline and the second matcher.
